2. Once a head of stock is turned out because a contestant did not show, that contestant is considered to have turned-out and under no circumstances will the stock brought back. If contestant gets hurt at the beginning of the rodeo, contestant may be put back to the last of go-rounds at the judges discretion.
3. In the event of a medical/vet release, members must notify the rodeo secretary before beginning of performance. The member with a medical/vet release will not be liable for fees and no fine will be imposed. Entry fees for this member will not be added to the jackpot. A doctor/vet release must be sent to the state office within seven (7) days and the member cannot enter through any entry system for ten (10) days after the turn-out. **VET RELEASE** is for Barrel Racers only.
4. The medical emergency release applies to personal disability and not to that of any livestock, except for the barrel-racing horses. The vet-out rule for barrel horses will be treated same as medical release.
5. Family Emergency releases apply to immediate family members only, and proof is required in the NMRA office within seven (7) days of the last performance of the rodeo the emergency pertains to. Proof shall be sufficient as determined by the Board of Directors at next regular meeting if necessary.
6. Team Roping - Because this event involves two (2) persons there have been some specific rules set up for situations where one partner shows up and other does not.
 - a. If one partner does not show up, the other person has the option to find a partner out of someone who is already entered in the rodeo for one run. If he/she cannot find a partner to fill the vacancy, then he/she must pay his part of the team.
In the event of a Medical Turnout for one partner, the other partner has the above option
Choosing not to take the option does NOT excuse the remaining partner from the rodeo.
7. Members who turn-out twice in a row without notification are ineligible to enter until fees plus fines are paid in the NMRA office.

C. Grand Entry

1. The Board of Directors reserves the right to institute fines for not participating in the Grand Entry at any NMRA Rodeo.
2. All members are encouraged to participate in the Grand Entry and fines can be imposed at the discretion of the event directors or judges.

D. Incentive Events

1. Incentive events are included for Calf Roping, Team Roping, and Barrel Racing. Directors will use the pay-offs listed for their event, with added money split and rules determined by each Director.
2. In the event that there are fewer qualified rides or times than there are places to pay, payment will be made on qualified rides and times only. The Secretary will use guidelines specified in the rulebook to make pay-off.
3. If there are no qualified times in the Incentive Calf Roping or Incentive Team Roping events, all of money goes into the Open Calf Roping or Open Team Roping. If there are no qualified times in the Open Calf Roping or Open Team Roping, the winners of the Incentive Calf Roping and Incentive Team Roping will also win the Open money.

E. Treatment of Livestock

1. No locked rowels, or rowels that will lock on spurs or sharpened spurs may be used on bareback horses or saddle bronc horses.
2. No sharpened rowels may be used on bulls.
3. Cinches on bareback riggings and saddle bronc saddles shall be made of mohair and shall be at least five (5) inches wide.
4. No wooden paddles or leather straps are permissible.
5. A neck rope must be used in the Calf Roping and calf may not be busted. If horse stops and calf hits the end of the rope in such a manner that the calf busts himself, the roper will not be responsible. Contestant must adjust rope and reins in such a manner that will prevent the horse from dragging the calf. Rope to be removed from the calf's body as soon as possible after the tie is completed.
6. The placing of fingers in eyes, lips or nose of steers in Steer Wrestling event is forbidden.

7. Animals for all events will be inspected before the draw, and no sore, lame, sick or injured animal, or animals with defective eyesight shall be permitted in the draw at any time. Should an animal become sick or be injured between the time it is drawn and the time it is scheduled to be used in competition, that animal shall not be used in competition, and another animal drawn for the contestants as provided in the association Rule Book. An official veterinarian should be available at all events.
8. No animal shall be beaten, mutilated or cruelly prodded. Electric prods not exceeding 12 inches in length shall be used as little as possible. Animal shall be touched only on hip or shoulder area with prod. See Chapter 5, Section 3, Rule A19.
9. A humane means of conveyance must be available to remove animals from arena in case of injury.
10. No sharp or cutting objects in clutch, saddle girth, or flank straps shall be permitted. Only sheepskin lined flanking straps shall be placed on the animal so the sheepskin-covered portion is over both flanks, and the belly of the animal.
11. Deliberate abuse of the rodeo stock will not be tolerated. At the discretion of the Judges, contestant will be fined. In the event of a second offense, contestant must appear before the Board of Directors before competing at any more NMRA rodeos.
12. Breaking or kinking tails is prohibited.

F. PAYOUTS

1. In the event that there are fewer qualified rides or times than there are places to pay, payment will be made on qualified rides and times only. Secretary will use percentages specified in the rulebook for guidelines to make the pay-off.
2. All money won will count toward Finals.
3. If there are no qualified rides or times, ground money will be paid to contestants who actually competed in that event (not including added money). All added money will be returned to the rodeo committee to distribute as they see fit.

G. ORDER OF EVENTS

1. The stock contractor and committee have the right to arrange the order of events as needed to fit individual rodeo needs as long as the Barrel Race/Incentive Barrel Race is after the steer wrestling.

H. ALL AROUND CHAMPION(S)

1. The All Around Champion(s) is to be determined first by the individual who enters two or more events, and wins the most money. Second, the individual who enters two or more events, competes, and wins the most total money. Third, the individual who wins the most money at the rodeo. These All Around rules are to be followed of All Around Awards of the NMRA and at all sanctioned events.
2. Should a committee desire to give All Around Award(s) and not use the above criteria, they must have a copy of their award calculation criteria turned into the field secretary prior to the start of the first performance. The field secretary must post the committee's criteria prior to the beginning of the first performance in order for their All Around Award criteria to be used.
3. A contestant can only count their highest single monetary placing if they are entered in the open and incentive division of an event. Team roping and incentive team roping will count as one event. Calf roping and incentive calf roping will count as one event. Barrel racing and incentive barrel racing will count as one event.

CHAPTER FIVE - STOCK CONTRACTORS

A. General Statement: Stock Contractors shall qualify for and maintain position in the NMRA at the discretion of the Board of Directors and according to the following rules.

1. Approved Stock Contractors have demonstrated skills, abilities, and general excellence in their profession and will be utilized at all NMRA first-sanctioned rodeos.
2. The Board of Directors reserves the right to deem any Stock Contractor unfit to represent the NMRA with just cause (penalties, fines or rule and by-law infractions) and a majority vote, as long as two (2) approved Stock Contractors are present at vote registration.
3. Any rodeo choosing a Stock Contractor which is not approved by the NMRA shall forfeit sanction privileges.

4. When Co-Sanctioning rodeos with other Associations, first preference shall be given to rodeos involving NMRA approved Stock Contractors.
5. Contractors wishing to become an approved Stock Contractor shall demonstrate skills, abilities, and general excellence in their profession. Said process for Demonstrating Stock Contractor (DSC) is outlined below:
 - a. Stock Contracting Membership dues shall be equal to the amount of contesting members and are payable with membership application to State Office. The date of this submission shall be the start of a calendar year of the demonstration period.
 - b. The DSC must produce or bring three (3) new non-existing rodeos to the NMRA during his demonstration period. The new rodeos must follow same and usual sanction rules and the DSC must intend them to be permanent. Any DSC who produces his own rodeos to qualify must produce same rodeos for one(1) more years after his demonstration year.

Definition of a Rodeo: An Event over the course of one (1) day to three(3) consecutive days which includes all of the current Sanctioned riding/timed events and follows all NMRA rules and by-laws. One-day rodeos shall qualify if added money (minimum requirements apply) is provided for both days in all events and separate sanction fees are paid.

- c. DSC shall be eligible to bring stock to the Membership Drive Rodeo (MDR) if membership application and sanction money for at least one (1) of the three (3) rodeos is paid to the State Office before the MDR.
 - d. DSC shall be eligible to bring stock to the Finals Rodeo in his probationary year only if he applies for early approval, meets the qualifications, and becomes approved by the Board of Directors thirty (30) days prior to said rodeo. Approval by the Board of Directors requires a majority vote with two (2) approved Stock Contractors present at vote registration.
 - e. Should a DSC apply for early approval and be denied, he still has the remainder of the demonstration year to attempt to qualify and be approved.
 - f. Should a DSC apply for final approval (at any time) and be accepted, he shall have full Stock Contracting privileges for the next rodeo season and subsequent years under the same conditions as other approved Contractors.
 - g. Should a DSC apply for final approval and be rejected, he may attempt the requalification process. This may or may not involve some of or the same three (3) new non-existing rodeos from the previous demonstration period. The new rodeos brought in under the DSC are not considered "existing" rodeos until an approved NMRA Stock Contractor is utilized.
 - h. DSC is not allowed to bid on existing NMRA first-sanctioned rodeos.
 - i. The DSC shall be governed by and follow the same rules and by-laws as set forth in the NMRA rule book, including all fines and penalties.
6. In order to maintain status and approval as a NMRA Stock Contractor, Contractors must have at least two (2) NMRA approved rodeos during the calendar year. When Contractor falls below two (2) rodeos in any given rodeo season, he shall have to have two (2) rodeos sanctioned the next year by the early deadline pre-determined yearly by the Director of Rodeo Administration. Failure to do so shall then require action by the Board of Directors as to whether to maintain said Contractor on the Approved Stock Contractors list. Any Stock Contractor that loses approval shall have to re-qualify under the above-mentioned qualification guidelines to gain reinstatement.
 7. Any approved Stock Contractor that does not provide stock for the Membership Drive Rodeo will not be eligible to bring stock to the NMRA State Finals Rodeo.
 8. Qualifying as an NMRA Stock Subcontractor:
 - a. Subcontractor must apply to the NMRA Board of Directors and purchase a Stock Contractors card. The Board of Directors will have the power to suspend this card at any time if it is deemed necessary. He may only subcontract stock to an approved NMRA Contractor and he may not produce rodeos with this type of card.

9. The Stock Contractor that chooses to subcontract stock for any rodeo is responsible for livestock furnished by the stock subcontractors at NMRA rodeos. Card-carrying Subcontractor may have stock at the NMRA Finals, however, it must have been used at NMRA rodeos during the season after this Subcontractor purchased their NMRA membership card. There shall be no subcontracting at the Membership Drive Rodeo.
10. All bucking stock must be proven or approved by the Event Director or his representative.
11. Cattle used for Steer Roping, Team Roping, Cutting, Penning or any other events shall not be used for Steer Wrestling.
12. No timed event cattle may be held over for longer than one calendar year.
13. Board of Directors has the right to declare any stock unsatisfactory, and any stock so declared will be taken from the draw.
14. An event representative or Director may declare particular animals unsatisfactory for competition at that competition or any. Upon notification, the Stock Contractor shall eliminate such animal from competition draw. Continued use of said animal(s) after notification shall result in a fine of \$25. Unsatisfactory animals may be reinstated with approval the Event Director. The Stock Contractor will have the option to appeal the Director's decision at a regular board meeting.

Definition of Unsatisfactory Animal - An animal that:

- a. is considered by the Event Director to be unhealthy or not suitable for competition,
 - b. has in the past caused safety concerns for a contestant or his horse
 - c. would cause an uneven competition, if used
 - d. has in the past demonstrated a disposition to act in a manner which may cause bylaws or rules violations or humane problems if used in a timed event
 - e. would result in a NMRA rule violation.
15. Stock contractors shall be responsible for providing adequate numbers of stock
 16. The amount of timed event cattle at approved rodeos will be enough for one half (1/2) the amount of contestants or "minimum", whichever is least.
 - a. Minimum number of cattle for Breakaway Roping is ten (10)
 - b. Minimum number of cattle for Team Roping is fifteen (15)
 - c. Minimum number of cattle for Calf Roping is twenty (20)
 - d. Minimum number of cattle for Steer Wrestling is ten (12)
 - e. The Stock contractor can use the same calves for the Calf Roping, Incentive Calf Roping and Breakaway Roping provided they furnish one calf for each tie down roper entered, then bring the calves back to the Breakaway roping.
 17. A penalty will be imposed on Contractors who do not comply with rule regarding amount of cattle unless otherwise approved by Event Director.
 18. All fresh tie-down calves shall be flanked and tied down two (2) times with the rope around the calves neck by the Calf Roping Director, or an appointed representative, at least four (4) hours prior to their being competed on at any NMRA approved rodeo. If the Stock Contractor has a fresh calf for every roper, the calves may be roped fresh if approved by the Calf Roping Director or his appointed representative. The Calf Roping Director or appointed representatives will tie all tie-down calves being roped for the first time at an NMRA Rodeo. Calf roping and breakaway calves are to be kept separate from rodeo to rodeo.
 19. Stock Contractors shall be responsible for providing competent Timers at a rodeo, regardless whether the contractor or committee is paying them. If a Timer(s) is deemed incompetent or unacceptable by the Judges and Arena Secretary, the Stock Contractor must provide a suitable replacement(s) by the next performance or sooner if possible.
 20. The Timer's Guidelines states that the Timer's watch should start when the neck rope breaks free from the animal. In accordance, a flag will be placed on the barrier to show when the neck rope breaks free. A flag will be used at all NMRA rodeos.
 21. Stock Contractors are responsible for paying one half (1/2) the Judge's fees or one (1) Judge for entire rodeo and slack.
 22. Stock Contractors have first right of refusal on timed event cattle at the Finals and Membership Drive Rodeo.

CHAPTER SIX - RODEO FIELD PERSONNEL GUIDELINES

A. Arena Secretaries

1. The NMRA will furnish a secretary to each sanctioned rodeo. This secretary is responsible for taking entry fees, selling NMRA memberships and handling the payoff. The NMRA Board of Directors shall be responsible for maintaining a roster of qualified secretaries.
2. The NMRA shall be responsible for the secretary's action and is liable for secretary's mistakes or discrepancies in the payoff or in the handling of entry fees.

7. Arena Secretaries will receive pay set by the Board of Directors plus \$50.00 Bonus per rodeo. This bonus will be paid only if books are postmarked or delivered within four (4) days following last performance, and are correct. **IF BOOKS ARE NOT IN THE OFFICE IN TEN (10) DAYS THERE WILL BE A FINE OF \$50.00.** If the Central Entry Secretary is also the Field Secretary, another Arena Secretary will check the field books. This person will receive the normal auditing fee for checking the books.
8. A Field Secretary who sends in three (3) consecutive incorrect sets of books or five (5) incorrect sets in the rodeo season shall be required to retrain at the discretion of the Central Entry Secretary.
9. All Secretaries will be required to work small, medium, or large rodeos at the discretion of the CES Secretary and the Board of Directors. In addition, the Membership Drive and Finals are required rodeos.
10. Arena Secretaries must be at least 18 years of age.

B. Timers

1. NMRA requires two experienced and qualified timers who must read and sign the Timers Guidelines provided by the Arena Secretary.
2. Two official timers must be used at every rodeo. Before the first performance, one timer will be declared PRIMARY and the other will be declared SECONDARY. The official time will be recorded from the PRIMARY watch and the SECONDARY watch will only be used when the PRIMARY timer missed the start or stop, or is delayed in starting or stopping the watch, or if the PRIMARY watch malfunctions. The PRIMARY timer shall declare the problem to the SECONDARY timer and the SECONDARY timer's time will be used as the official time.
3. The same two (2) timers must be used throughout the whole rodeo, including slack, unless one or both are found incompetent by the Judge or Secretary.

C. Judges

1. All Judges and Flagmen must be approved by the Board of Directors, attend a Judging Seminar, and/or pass a written test.
2. A rodeo judge shall not compete in any event at a rodeo he/she is judging.
3. Neither Barrier Judge, Field Judge, nor Riding Judge may be changed during the course of a rodeo except in the case of sickness or by request on an NMRA official in agreement with stock contractor and rodeo committee.
4. Judges must remain available to the rodeo office until the Arena Secretary has made a final check of the books.
5. Judges Pay - The Stock Contractor will pay one Judge \$100 per performance and the NMRA will pay the other Judge \$100 per performance.
6. Paying Judges for Slack - The NMRA will pay ½ of the fee (one Judge) and the Stock Contractor will pay the other ½ of the fee (one Judge).

- 1 -10 runs - \$25
- 11-30 runs - \$50 each
- 31-55 runs - \$75 each
- 56-76 runs - \$100 each
- 77-125 runs - \$125 each
- 126 or more - \$150 each
- 8. Judges must be 18 years of age.
- 9. Judges for the NMRA Finals to be paid by the NMRA Association.
 - a. For the NMRA Finals there needs to be 2 judges.
 - b. Jackets will be purchased for each Finals Judge
 - c. Buckles for the 2 Finals Judges
 - d. Finals pay for judges will be determined before the finals and be commensurate with like associations.

D. Judges Books

1. Markings in the rodeo events shall be totaled by both judges and the rodeo secretary and posted in ink after each performance.
2. Barrier Judges shall keep a record of all barrier penalty occurrences in ink. Arena Secretary will furnish a complete list of contestants which must correspond with her list.
3. Markings must be totaled by the Judges and checked by the Secretary.
4. Arena Secretary shall tally and post scores on the bulletin board at the end of each day.
5. Any judge who does not enforce the rules of the Official Rule Book will be reported to the NMRA by the arena director, association official or spokesman. The Board will decide penalties and fines which shall be a minimum of one performance pay for that particular rodeo.

E. Flagging Timed Events

1. If an animal escapes from the arena in any timed event , flag will be dropped and watches stopped. Contestants will get animal back with "lap and tap" start, and time already spent will be added to previous time. If time is not recorded, the decision of the Flag Judge shall be final.
 - a. If barrier equipment hangs on animal/contestant, contestant must declare himself to receive a rerun.
 - b. If rope is on animal, roper will get animal "lap and tap" with rope on it in chute.
 - c. A field Flag Judge must ask contestants if they want a second loop or jump.
2. It is the responsibility of the contestant to make sure the correct animal is in the chute. Accepting an incorrect animal will result in disqualification.
3. During any performance if an animal in timed events escapes the chutes or pens before it is called for by contestant, or if automatic barrier fails to work and stock is brought back, that animal will be returned by the arena director and the labor crew during, or at the end of that performance in the same manner he was originally worked or brought to the pens for contesting. At least several head of animals will be brought back together. No animal may be repenned by himself. The arena director will make the decision about when stock is repenned.
4. Barrier Judge and one (1) man will line the timed event stock at the option of the contestant. The position of the hazer will be determined by the judge.
5. Flag Judge shall position himself for Calf Roping at the end of the arena allowing him to come toward the roper. In Steer Wrestling, and Team Roping, Field Flagger shall place himself against the fence on the left-hand side of the timed event box. In Breakaway Roping, Flagger shall position himself on the side the contestant is dominant-handed.
6. During both a performances and slack, no contestant or teams are to be in the arena while a timed event is in progress.
7. There shall be two (2) or more Timers, one (1) field Flag Judge and one (1) Barrier Judge. Time will be taken between two flags. Arena conditions will determine score and length of score to be set by Judges and timed event spokesman or Director, if present. Animal used for this event should be inspected and objectionable ones eliminated.
8. Line Judge stands same side as contestant.

F. Barriers and Scorelines

1. A ten-foot tape must be on hand for the Barrier Judge. Height of barrier in timed events shall be from 32" to 37" measured at the center of the box. Barrier Judge is responsible to change barrier

string whenever it may have been weakened, or on request of next contestant. Barrier Judge shall keep a record of the length of the barrier trip rope each performance to assure the same start for contestants each performance. Adjusting length of barrier trip rope will be accomplished only by tying knots in the rope on either end. A ten (10) second penalty will be added for breaking the barrier. In all timed events, a barrier will not be considered broken unless ring drops within ten (10) feet of the post. The Judge before each timed event must inspect barrier equipment. If equipment is faulty, it must be replaced. Should barrier break at any point other than designated breaking point, decision is up to the Barrier Judge. If contestant obviously beats barrier, but the staples are pulled or barrier rope is broken and string unbroken, Barrier Judge may assess a ten (10) second fine. Otherwise, this will not be considered a broken barrier.

2. Automatic Barrier shall be defined as a neck rope and a rope stretched across the front of the box. No metal catches shall be used. Judges discretion for barrier specifics shall apply.
3. If Barrier Flagman is used, animal to be flagged when crossing starting, or deadline, in front of Flagman, Barrier Judge shall be sure that nobody can stand close enough to barrier or barrier equipment to tamper with same.
4. Once score line has been set in timed events it will not be changed at that rodeo, nor can length of box be changed.
5. In order for time to be considered official, barrier flag must operate.
6. If automatic barrier does not work but time is recorded, contestant or team will get time, but there will be no penalty for broken barrier.
7. If automatic barrier fails to work and official time has not started, contestant or team will get stock back if stock is qualified on the field.
8. If automatic barrier fails to work, and stock is brought back, contestant must take same animal over during or immediately after the same performance if stock is drawn.
9. If, in the opinion of the Barrier Judge, contestant or horse is fouled by barrier, roper shall get the calf or steer back providing contestant declares himself by pulling up immediately.
10. If, in the opinion of the Barrier Judge, the contestant obviously broke the barrier, the contestant may be assessed a ten (10) second penalty.
11. Side-Pull Barrier: All barriers must be side-pull barrier with the pulley and the neck rope pulling from the side of the chute.
12. The Judges for each rodeo shall be responsible for providing adequate barrier equipment.
13. Chute Clearance: The timed event chute must have at least 28 inches clearance inside the chute, and at the gate when in an open position for Steer Wrestling and Team Roping.
14. Lining for Timed Event Boxes: In order to protect the contestant's horse, the back and the side opposite the timed event chute shall either have a lower rail which is no less than 3 ft. above ground level and with no obstruction in the area from ground level up to the lower rail or be lined from ground level up to a minimum of 3 ft. high with a solid panel (either metal or 3/4" plywood). Box pads are likewise required for each timed event box.
15. If contestant is fouled by the gate man, he must declare himself by pulling up. Example of this would include, but not limited to failing to open the gate on nod, taking more than one attempt to open gate, or an exceptionally slow opening of the gate. It would not include hanging of horns or legs, etc., by the animal. In the event of this happening, he will not receive a rerun or have a broken barrier penalty removed.

G. Drawing Stock

1. All stock contest events must be drawn by number by a judge.
2. The team roping cattle must be drawn for as in other events and run in order, except in slack where the order may be changed after the first run, but cattle must still be drawn.
3. There must be as many as six (6) exact copies made of the draw, (1) to be posted, one (1) copy for the Barrier Judge, one (1) for chute help, two (2) for Timers, and one or more copies for the Arena Secretary's record.
4. Receptacle containing numbers to be drawn must be held above the drawing judge's head and numbers shaken between each number drawn. Drawing must be conducted so that any entrant may witness the draw as long as there is not unruly behavior exhibited by the contestants.
5. If Judges cannot be present at the drawing they must notify the stock contractor and have a qualified representative or spokesman present.
6. Drawing stock must be done one and one half (1.5) hours prior to each performance.

7. Draw must be posted one (1) hour prior to performance.
8. If an animal that is drawn in a riding event or is drawn in a pen in a times event becomes sick or crippled before it is out that time, a Judge must pass on the animal's inability to be used before it can be shipped or replaced in the draw.
9. A Contractor may set a pen of cattle prior to actual contestant draw for purpose of sorting cattle.
10. A contestant cannot compete on same head of stock twice in the same rodeo except in Team Roping and only then with a different partner.
11. Once the draw is made for the first performance, extra cattle cannot be added to the draw.
12. Method of drawing Timed Event stock shall proceed as follows:
 - a. All cattle in the draw will run one (1) time before any cattle will be run twice, except when due to split performance this becomes impossible by requiring several animals to be run twice in the same performance or slack run.

EXAMPLE:

Saturday Perf = 12 ropers
Sunday Slack = 7 ropers
Sunday Perf = 14 ropers
17 calves

STEP 1: Draw 12 calves from all 17 calves for 12 ropers Saturday performance.

STEP 2: Draw from only the remaining 5 calves for first 5 ropers n Sunday Slack.

STEP 3: Hold back the 5 calves drawn in STEP 2 and draw from 12 calves for remaining 2 ropers in slack. (At this point all calves will have been run once and 2 calves will have been run twice.)

STEP 4: For Sunday performance, draw from only the 15 calves which have been run once for the first 14 ropers.

Thus, no animal will be drawn twice for one performance. All calves will have been run twice except for one (1) which will have run one (1) time.

13. Method of drawing Rough Stock shall proceed as follows:
 - a. Pens may be set by stock contractor or drawn.
 - b. At least two (2) more animals than are needed for that performance should be included in the draw. Feature animals are withheld from the draw until re-rides are drawn. The re-rides are drawn first, then the feature animals are included in the draw and stock is drawn. Stock Contractor may designate rerides
14. Drawing for Members and Non-Members in rough stock events only: The Judges and Stock Contractor can set their pens for and draw for the Members and paid Non-Members first, then draw for everyone else last. Therefore, it is advantageous for Non-Members to pay early!

H. Riding Events

1. Mark-out Rule: To qualify, Bareback or Saddle Bronc rider must have his spurs over or above the break of the shoulders and touching the horse when the horse's front feet hit the ground on his initial move out of the chute. It is not necessary to have spurs over the break when the horse is still standing in the chute. Spurs can be well up the horses neck so long as they don't come out from behind the break. Spurs that are rolling above the break should not be disqualified. Too many riders are rough-locking the horse before he ever moves, causing many horses to stall. The best way to spur one out is to reach for him after he moves.
2. The spurs may be rolling in the bareback riding event, but must be touching the animal when the horse's front feet hit the ground on its initial move out of the chute. The initial move out of the chute may be the following:
 - a. Rear Out
 - b. Run Out
 - c. Buck Out
 - d. Step Out
3. Time starts when the animal's inside front shoulder crosses the plane of the chute, not when the horse's front feet make the initial move.

4. Judge should not stand too close or behind the gate and shall have a clear view of the rider and the horse at the same time. Judges should shout "go on" if the rider gets fouled at the gate or the horse stalls. If the rider gets fouled at the gate, the judge yelling "go on" tells the contestant if he is in shape to try the animal and the mark out rule has been waived. If contestant tries his animal, he has accepted the animal, and has no rерide coming because of the foul at the gate. Even if the contestant has missed spurring out on your side, continue to watch the ride because the other official may have waived the spur out rule.
5. Judge should be aware of a contestant getting in a little trouble and jumping off when he is not fouled by the animal. He may be trying to take advantage of other contestants by getting a rерide. This applies to a horse stumbling and falling or bucking into a fence. A contestant need not declare an animal that falls in order to receive a marking with an option of a rерide. All contestants shall be treated alike.
6. Even though the ride and the animal are marked separately, marking for the ride is dependant on the degree of difficulty of the animal.
7. Judges shall use the full spread when at all possible and don't hesitate to mark the top of the spread when you see something outstanding, either rider or horse. Judges should use low marks (from 5-10) for a poor ride or animal, and higher markings (from 20-25) for exceptional performance by animals and/or riders. Low markings on the winning ride defeats the purpose of the scoring system.
8. Judges must not pick out one thing on which to dock a ride. Mark the horse and ride according to the entire picture.
9. Judges will judge one foot (side) and one foot (side) alone. If an animal moves to a point where you can't see your foot, you will have to mark from what you can see. If a bull or horse spins and rider is buried in with your fool and spurring with the other foot, let the other judge mark him accordingly with the other foot (on his side). The other judge would then mark him accordingly for an outstanding ride, even though your side was only fair.
10. Anytime one judge's view is blocked for very much of the ride, he should refer to the other judge's markings for the animal, and to see if the ride was consistent while his view was blocked. In some cases, if a judge doesn't get to see much of the ride he should disqualify himself and use the other judge's markings.
11. A Judge shall judge the full eight (8) seconds of the ride. If an animal starts and then stalls for any length of time, mark the animal and rider for what they have done. If the animal stalls four (4) seconds and bucks four seconds, only mark him for four seconds. Notify the rider of his markings with the option of a rерide. Judges should not base markings on the last part only; consider the full time of the ride.
12. Contestants do not necessarily compete in the same order as the judge's sheet, so make sure you have marked the correct contestant and animal.
13. Judges shall refer back to your books, especially at rodeos with several performances, to refresh your memory about the rides.
14. Judges will mark the animal and contestant only for their efforts. Don't be fooled by dramatic actions of contestants or by movement of chaps or other equipment used to make the ride or animal look good.
15. Judges should not let the announcer, stock contractor, spectators, contestants, or anyone else influence the decision. Animals, just like contestants, have good days and bad days, so score them both on how they perform today. When a previously unriden animal gets ridden it is no sign that the cowboy should automatically win or even place.
16. Rerides
 - a. Rerides will be given at the discretion of a judge. Reasons for possible rerides are as follows: If an animal stops, fouls rider, stock contractor's equipment fails, or performance of animal is inferior. Contestant may take same animal back, providing stock contractor is willing, or contestant may demand a rерide animal be drawn. If contestant takes same animal back, he must take the marking the second time. The only exception will be if contestant is fouled again or there is an equipment failure.
 - b. If the pickup man or horse comes in contact with a bucking horse before qualified time has elapsed, contestant may be given a marking with an option of a rерide providing contestant make a qualified ride initially.
 - c. If rерide is given, Judge shall inform contestant of his marking and an option of a rерide.

Contestant may refuse reride and take marking. Contestant must notify Judge immediately of his decision to accept or reject the option.

- d. If a horse stalls coming out of the chute, either Judge shall tell rider to take his feet out of the horse's neck and mark-out rule will be waived.
- e. If in the opinion of the Judges a rider is fouled at the gate, a reride may be given or the mark-out rule may be waived.
- f. If animal fouls rider, he must declare himself immediately in order to receive reride. If rider does not declare himself he must accept score given.
- g. If an animal that runs off is already drawn for another contestant, that contestant must take the animal already drawn.
- h. All rerides must be drawn for, turn-outs cannot be substituted for a reride.
- i. If an animal that is drawn for a reride is already drawn for another contestant in the same performance, the contestant with the animal drawn will take it before the man who draws the animal for a reride.
- j. If an animal that is drawn for a reride is already drawn for another contestant in a later round, the contestant with the reride in the prior go-round will take the animal first.
- k. If, in the opinion of the Judges, a rider makes two (2) honest efforts to get out on a chute-fighting animal and is unable to do so, he may have a reride.
- l. When a final head is to be ridden in a riding event, at least two (2) additional head of stock will be available for rerides.
- m. If a riding event animal stops after an initial start, and any outside help is used to start it again, contestant will not be required to qualify in order to be awarded a reride.

H. Ladies Barrel Race

1. Barrel racing is a timed event. The starting and finish line and position for the barrels must be marked permanently for the entire rodeo. If an electric timer is used, it shall be permanently marked for the entire rodeo as well.
2. There shall be two Judges, one (1) to act as a Line flag Judge and one (1) to act as a Field Judge to determine any irregularities that may occur in the arena. Prior to the first performance, Judges will check and measure existing stakes. Permanent stakes will be placed at this time to be used for the entire rodeo.
3. Members up in the first performance are asked to assist Judges in setting markers and giving the measurements to the Arena Secretary. If there are more than one performance, contestants in other performances are asked to check markers before rodeo.
4. Each contestant will begin from a running start, time shall begin as soon as the horse's nose reaches the starting line and will be stopped when the horse's nose reaches the finish line. The starting and finish line must be the same.
 - a. There will be no intentional circling of the horse prior to starting the electric eye. If a side or corner gate is used a spin or pivot is acceptable in either direction. Failure to comply is a \$25.00 fine.
5. The barrel course may be run with (1) right turn and two left turns or one (1) left turn and two (2) right turns.
6. Contestant will be assessed a five (5) second penalty for knocking over a barrel. Touching a barrel is permitted.
7. Should a barrel be knocked over and it sets up on opposite end, the five (5) second penalty will be assessed.
8. If the barrel is still standing when contestant goes across finish line and then falls down, a time will be posted. Flagman's decision will be final.
9. Contestants will be disqualified for not following pattern, or not being ready to contest when name is called.
10. Should barrels not be placed on markers or Flagman not be in correct place, things must be put in the correct order and all contestants who ran on the incorrect course must be re-run with no penalties assessed.
11. Should the markers be gone and a tape measure be used to set the barrels, that is sufficient, and no reruns will be allowed.
12. Brightly colored 55 gallon steel drums must be used. There shall be no rubber barrels or barrel

- pads used. Both ends of the barrel shall be closed in.
13. No re-runs shall be given at a rodeo when a horse falls, unless it is posted in the rodeo office as a special ground rule at that rodeo.
 14. No re-runs will be given for broken equipment. Re-run will be given should a default occur due to management.
 - a. If a re-run is allowed, contestant may be allowed to make the re-run after the performance.
 - b. The decision to re-run must be made immediately following the rodeo, and all contestants notified, if possible.
 - c. If the timer does not work and a re-run is given, a contestant has the option of keeping her original back up time. The exception is for an "average" rodeo, the contestant must run again with the electric eye, after the performance.
 15. Barrels must not be set on the markers when practicing or working horse on pattern. When markers are set for practicing or working horse they must be set at least ten (10) feet off the markers.
 16. Ground:
 - a. Committee is asked to prepare ground in the arena to be consistent throughout the event. Committee shall have equipment to drag for the Barrel Race.
 - b. Whenever possible, a maximum of (14) runners shall be allowed per performance. Drag will be used after seven (7) actual runs, regardless of turnouts. No ground rules shall supercede.
 - c. In the slack, ground around the barrels must be worked with a tractor, if one is available, before the barrel race and after the equivalent numbers of contestants for a performance have competed. If a drag is used, it should be dragged the same.
 - d. If slack is run before first performance of the rodeo, it is mandatory to work and water the ground the same as it will be done for the performance during the rodeo.
 - e. Incentive Barrel Race, when sanctioned will be run under the guidelines set forth by the Director of the event and shall be approved by the Board of Directors.
 17. Committee ground rules may apply when approved by the Board of Directors for that specific rodeo
 18. BARREL PATTERN Standard course should be used whenever possible:
 - a. 90 feet between barrels one and two.
 - b. 105 feet between barrels one and three and between barrels two and three.
 - c. 60 feet from barrels one and two to scoreline.
 - d. Maximum distance of 105 feet between barrels one and two: 120 feet between two and three and one and three. Scoreline must never be more than 90 feet. Above rule is applicable in unusually large arenas.The following shall be used in smaller arenas:
 - a. Scoreline should be 45 feet away from end of arena.
 - b. Barrels one and two must be 18 feet from sides of the arena.
 - c. Barrels must be 36 feet from end of arena, but may not be over 105 feet between barrels one and three and two and three.
 19. The barrels must be marked using a 100-foot measuring tape. Add five (5) feet on the tape in order for correct measurement between one and three and two and three. The person measuring the barrel pattern must make an arc on the ground from barrel one to barrel three and from barrel two to barrel three. Where the arcs cross is where the third barrel marker must be placed. This will insure equal distance for barrel racers who run to either the right or left barrel first. The starting line must also be correctly measured back from barrel one and two, so that the distance is the same to insure equal distance from scoreline to either barrel. Permanent markers shall be placed on both sides to indicate the starting line.
 20. Markers should be buried so they will remain in the same place during the entire rodeo. If an electric eye is used, markers must be buried to mark the tripod locations. All three (3) barrels will be placed so the marker is on the outside of the base of the barrel as it is placed on the ground. Judges should check all three (3) barrels to make sure barrels have correctly been placed before race begins, and after barrel or barrels that have been knocked over have been reset.
 21. Entry fees must be at least \$50.00.

Electric Eye charge is a maximum of \$5.00.

22. Electric Eye should be used if provided. If electric eye fails, regardless of which performance this happens in, every effort should be made to have an eye for the remaining performances.
 - a. Judges, Secretaries and Barrel Racers shall be held responsible for readiness of the eye prior to its use. Stock Contractors should be willing to assist Judges, Secretaries and Barrel Racers in their attempts to prepare and use the eye.
 - b. The official Flag Judge will always back up the eye on the starting line. The Flagman should never leave his position.
 - c. The flag time or back-up time will always be clocked by one manual Timer. The Head Timer will make sure the Backup Timer records the manual time readout to the hundredths. The Arena Secretary will make sure the Head Timer records the eye time to the thousandths.
 - d. Back-up times will be recorded to the hundredths only.
23. In the event of electric eye failure: If the electric eye fails to work for more than one-half (51%) of the contestants in an entire rodeo (or go-around in the case of more than one go-round), the back-up recorded times will be the official times for all contestants in that rodeo (or go-round). If the electric eye works for more than half the contestants, those with electric eye times will retain them for their official times and the remainder of contestants will have back-up times for their official times.
24. Any barrel racing contestant who runs out of order will be disqualified.
25. Incentive Barrel Race (2D)
 - a. This event shall be 'within' the Open Barrel Racing
 - b. The Incentive placing will be determined by a .7 second split from the overall fast time, which is also the winning time.
 - c. 60% of all barrel racing money (added money and entry fees) will go to the open barrel race and 40% of all moneies will go to the incentive pay out.
 - f. The Finals will be run identical to how the entire rodeo season has been run.
